The date has arrived! What happens next?

Your **effective retirement date** is the first of the month after your last certified date of termination.

- ◆ TRS confirms, in writing, your gross monthly benefit amount.
- ◆ TRS provides a Benefit Recipient's Retirement Plan Handbook for your reference.
- ◆ TRS performs a final audit of your account, usually within 90 days of your effective retirement date and after your employer has reported all contributions. TRS may need to adjust your benefit amount retroactive to your effective retirement date. After the audit, TRS confirms again, in writing, your actual gross monthly benefit amount.
- ◆ TRS pays your benefit on the **last** business day of each month. (If you authorized deduction of your health insurance premium, TRS forwards the funds to your employer for payment of *next* month's insurance.)

You attain **retired member status** when:

- ◆ You have **terminated all employment** in all positions reportable to TRS, **and**
- ◆ You have **received** at least one TRS monthly benefit (i.e., it has been electronically deposited to your bank account or you have cashed or deposited a check).

Note about GABA increases: Once you have received at least 36 monthly benefit payments, you will receive a Guaranteed Annual Benefit Adjustment (GABA) effective with your January benefit each year.
